

IT Acceptable Use & Monitoring Policy (2024)

Owner: IT Security – approved by the Management Committee on 8 April 2024.

1. Company property

All IT systems, devices, e-mail accounts and data are company property and are provided for business use.

2. Acceptable use

- Limited private use is tolerated if it does not interfere with work.
- No storage of company data on private devices or personal cloud accounts.
- Use of personal e-mail for company documents is forbidden.

3. Monitoring

3.1 IT Security monitors network traffic, DLP events, VPN connections and security logs.

3.2 **Tectonic may access, inspect and read any mailbox, file or device at any time and without notice for any legitimate business reason**, including investigations into misconduct or leaks.

3.3 Employees have no expectation of privacy on company systems.

4. Logs

Security logs (VPN, DLP, proxy) are retained for 12 months. They are **confidential security data** and are not shared outside IT Security, except with the Management Committee or HR in investigations.

5. Sanctions

Breaches may lead to disciplinary sanctions up to dismissal for serious cause.

Kristof Janssens, IT Security Manager
