

HR Investigation Report – Case HR-2026-011 (Marc Dubois)

Opened: 9 March 2026 – **Closed:** 13 March 2026 – **Author:** Catherine Lemaire, HR Director

1. Trigger

DLP alerts DLP-88490/91/92 of 5 March 2026 (CRM mass export, upload of pricing file to personal Google Drive, forward to private Gmail), reported by IT Security on 6 March 2026.

2. Steps

- 09/03: case opened; Legal Counsel informed.
- 10/03: invitation to hearing sent to Mr Dubois (hearing 12/03).
- 11/03: IT forensic report received (INV-Q01-02).
- 12/03: hearing of Mr Dubois (minutes INV-Q01-03).
- 13/03: analysis and conclusion.

3. Findings

1. The transfers are established and admitted.
2. The data is classified Confidential.
3. Mr Dubois explains he needed the files to work at home because of VPN problems (ticket INC-20931 confirms a VPN incident from 02/03). However, a **full CRM export** is not needed for the Q1 closing, and forwarding to a private Gmail is not explained by a VPN problem.
4. The forensic review shows two private e-mails with a recruiter of DataNova (competitor).

4. Conclusion

The company obtained certainty of the facts and of their seriousness on 13 March 2026, after hearing Mr Dubois' explanation. The facts are considered a serious breach of trust. Recommendation: dismissal for serious cause, to be notified by Monday 16 March 2026 at the latest.

Signed: Catherine Lemaire, 13/03/2026
